## Graphing Quadratic Inequalities

Sheet 1

Graph each inequality.

1)  $y > 4x^2 - 4$

2)  $y \leq -2x^2 + 4x + 6$

3)  $y < 3x^2 - 6x - 9$

4)  $y \geq x^2$

5)  $y \geq -4x^2 - 16x + 9$

6)  $y > -x^2 - 2x - 1$

## Quadratic Inequality Solution

$$x^2 - x - 12 > 0$$

$$x^2 - x - 12 = 0$$

$$(x-4)(x+3) = 0$$

$$\frac{x-4=0}{x=4} \quad \frac{x+3=0}{x=-3}$$

Interval Notation?  $(-\infty, -3) \cup (4, \infty)$

Interval I Interval II Interval III  
 TRUE FALSE TRUE  
 Number Line

What is the solution written in

## Using Elimination/Addition to Solve Systems of Equations Activity

Use elimination/addition to solve the systems of equations listed below. Be sure to show the steps you used to solve each system of equations.

$$4x + 2y = 8$$

$$5x - 3y = 4$$

$$x + 2y = 3$$

$$-x + y = -2$$

$$x + 4y = 7$$

$$2x - 4y = -3$$

$$2x + 5y = 6$$

$$-x + 2y = 3$$

$$-2x + 3y = 7$$

$$2x - 5y = -3$$

$$2x - 3y = -2$$

$$3x + 3y = 4$$

## Graphing Quadratic Inequalities

Graph each inequality.

1)  $y > 4x^2 - 4$

2)  $y \leq -2x^2 + 4x + 6$

3)  $y < 3x^2 - 6x - 9$

4)  $y \geq x^2$

5)  $y \geq -4x^2 - 16x + 9$

6)  $y > -x^2 - 2x - 1$

Printable Math Worksheets @ [www.mathworksheets4kids.com](http://www.mathworksheets4kids.com)

Write a system of linear inequalities that defines the shaded region.

$b = 7$        $b = -1$   
 $m = \frac{4}{2} = 2$        $m = \frac{-4}{2}$   
 $y > 2x + 7$        $m = -2$   
 $0 \quad 2(0) + 7$        $y \leq -2x - 1$   
 $0 \quad 0 + 7$        $0 \quad -2(0) - 1$   
 $0 \quad 7$        $0 \quad -1$

Graphing linear equations using a table of values worksheet kuta. Graphing linear equations worksheet answers kuta software.

You are here: Home - Worksheets - Long division Create an unlimited supply of worksheets for long division (grades 4-6), including with 2-digit and 3-digit divisors. The worksheets can be made in html or PDF format - both are easy to print. You can also customize them using the generator below. The worksheets on this page are divided into three major sections: Single-digit divisor Two-digit divisor Three-digit divisors Please note: worksheets for long division with remainders are on their separate page. All the problems in the worksheets on this page are exact divisions (no remainder). Each worksheet is randomly generated and thus unique. The answer key is automatically generated and is placed on the second page of the file. You can generate the worksheets either in html or PDF format - both are easy to print. To get the PDF worksheet, simply push the button titled "Create PDF" or "Make PDF worksheet". To get the worksheet in html format, push the button "View in browser" or "Make html worksheet". This has the advantage that you can save the worksheet directly from your browser (choose File - Save) and then edit it in Word or other word processing program. Sometimes the generated worksheet is not exactly what you want. Just try again! To get a different worksheet using the same options: PDF format: come back to this page and push the button again. Html format: simply refresh the worksheet page in your browser window. Long division with single-digit divisor Division problems - set up the long division yourself In these worksheets, the student has to set up the long division himself (the division problem is written horizontally at the top of the workspace). Long division with two-digit divisor Three-digit divisors The following worksheets are for three-digit divisors. The divisions are exact. If you're looking for division with remainders, you can make worksheets using the generator below or go to this page for some ready-made worksheets. Division worksheets generator Use the generator to make customized worksheets, including horizontally written problems, long division, and division with remainders. Loading... © 2022 Kuta Software.
