Sometimes what you don't know can't hurt you, but it can't hurt you. © the case when you buy a used car. As a n independent supplier of automotive history, in CARFAX we have made our mission tell you everything you need to know by discovering the largest number of events possible from the previous life of a used car. Our main objective © Help you to get to know your next car from the inside out before you decide to make an investment that will be part of you and your family's everyday life. We believe that your next car should not hide anything from you. The Historical Reports of CARFAX vehicles contain more than 28 thousand million historical records of twenty European countries, the US and Canada, which are updated daily with new information. Even if you live in a country we do not collect vehicle data. The import and export market of used cars is growing and many owners would be surprised to find out exactly what happened to their vehicle during their previous life abroad. Privacy for Giving Clients Transparency on Vehicles Let's be clear: Though we strive to find all the details of life from one car to the next © now, we are focused only on the vehicle history, and do not collect any information about previous owners. The information we provide relates only to the vehicle, its reading of the vehicle. © trica, any accidents that have been covered up, where the vehicle comes from and much more money is not © personal. We have discovered irreparable damage several times in the past, but other times our control of cell-rich history attracts a white llamba and sometimes this is © really a good thing. N o © the second best you knew that considerably more used cars are sold than new cars? We think this system in second hand is © Fantastic. However, the © Obvious that mother origin © All different things: some salesmen will disguise a car that was in an accident under a new coat of paint, tamper with the odometer or hide theft. Yes. Yes. one of the less attractive aspects of buying second hand. © establishing confidence relationships between buyers and sellers, since this is © the best way to help customers make the right decision. Your new car should be trusted and make you feel safe, as well as make you feel like you didn't pay much. But most of all, we don't want you or your family not knowing sitting behind the wheel of a car that's not © 100% insurance. That is why we strive to get these vehicles off the road, which does not only make the autonomous used market safer, but also © m our safest streets. CARFAX AX+ Years of Experience in Vehicle Histories CARFAX was founded in the US in 1984 and expanded to Europe in 2007. Around 100 team members scattered across six European offices process information on 22nd country vehicles. Fostering Strategic Partnerships © Logging authorities, law enforcement agencies, government departments, insurance companies, inspection centres and many other leading companies around the world have allowed us to compile an international database for vehicle histories. We use this database to help make the market self-usable used more transparent. We give everyone in the process of buying a used car access to what is © currently the most comprehensive source in the world for reports of vehicle history, and is growing day after day. We remain neutral and independent, despite our partnerships with the company, our only goal © help customers make an informed choice and ensure their safety and the safety of their family. This includes never collecting any personal details and we do not accept any PII of data sources between the information we provide on a vehicle. We ensure that data protection laws are observed at all times. Hello. © we always collect our data in accordance with the existing legal and regulatory requirements in all the conditions in which we are active. We distance ourselves from illegal activities such as data theft, scraping and hacking.
