Thus they use their vast resources to extend their reach, all the while watching and waiting for the right moment — the right moment 1994, Clanbook, Review, Sourcebook In this episode, we dig deep into the history of the most distrusted and feared of Camarilla Clans with Clanbook: Tremere is the second youngest of the wampiric clans, having just come into existence during the dark ages. In the little time since then they have made incredible inroads within vampiric society and are arguably the most powerful clan in the modern nights. This is due in no small part to their strict hierarchy, secretive nature, and mastery of Thaumaturgy, all of which elicit suspicion, fear, and respect from other Cainites. The Warlocks stand as a pillar of the Camarilla and are one of its main defenders, despite the fact that they exist almost as a subsect. Some even go so far as to consider themselves the evolution of vampirism, citing their extreme versatility of blood magic and lack of a true clan curse. The Final Nights have many things in store for the Tremere, however, and the more powerful they grow, the more their enemies gather - and in their bid for power, the Tremere have accumulated more enemies than most." Born of murder and greed, created for power and destruction, they are the most feared of the Camarilla clans. they are also the clan with the most to fear, for their enemies are everywhere, especially within their own ranks.
