Since FIFA 20, I am facing Installation issues on my Samsung A30 The first installation of FIFA 20 was smooth. After that, if there is any update, then the installation just doesn't happen. I have try from Phone and then desktop. After trying for 10-15 times, it may happen, else it keeps saying "Trying to download" Please helpCommen Hell: Revised... After barely 15 days of gaming i have started receiving server connection errors. Please fix this. For now bringing the rating down to 4 stars as I can't play this wonderful game. Earlier... Too addictive. Loving every second of it. Playing on my OP6, decent graphics and minimal lag. Just hate it when my ISP can't keep up at times.Mohammed Shahariar Rahman: Where is the commentary??? This is such an amazing soccer game.....and I found it the best soccer game....I mean surely it's my personal opinion.....but I think a very few things are missing. (1) commentary , (2) side referees (I mean the one who gives signal of offside, throw-in)otherwise I'll give it 5 star. Shahariar from BangladeshMatt Andryushin: This game has always been the best soccer game out there, but this game need alot of you. You need to pay to get good things and it's hard getting good things without pay. Also, the shooting is so off. Every one on one you have a 80% chance of miss.
